***EXAMINER'S COMMENT***

The additionally cited U.S. Patent to Rubner et al. discloses a method of forming a multilayer thin film heterostructure in which one of the coating layers is an uncharged polymer species. However, Rubner et al. does not disclose a method which includes the claimed applying and drying steps, that is, the steps of applying a solution to form a first coating, drying the first coating layer, applying a solution to form a second coating layer and drying the second coating layer.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to M. Wilczewski whose telephone number is (571) 272-1849.
